

Selena Chavez

Outline: MAST event

Deadline: Thursday, April 25th

Purpose: For all social media

Aerial Alchemy participated in the Port's 6th Annual Maritime Advanced Systems & Technology Expo (MAST) in Port Hueneme. Where young minds were able to explore the avenues of technology and innovation. Our staff went to this Expo with the sole purpose of motivating the STEM students within our community to learn about advantageous opportunities in seeking an engineering path.

We hope to educate the next generation of innovators and inspire them to change the world with the help of our cutting-edge technology.
